

Tip: Blenders & Mason Jars

How to use a mason jar with your blender to whip or chop things right into the jar.

METHOD

Step 1: Remove the base from the regular blender container.

Step 2: Screw on the base to the mason jar. Make sure it is nice and tight.

Step 3: Invert the jar and place on the blender.

Step 4: Use as you would a food processor. Pulse or blend to desired degree.
